

Under One Roof

Offering bespoke timber building solutions to the House Build and Modular sectors

HELPING HOUSE BUILDERS AND CONTRACTORS TO BUILD CLIENT DREAMS AND ASPIRATIONS FOR OVER 100 YEARS

We understand that housebuilders and developers require aesthetically pleasing, functional and hassle-free building materials which meet all required building regulations, while still delivering on quality and within an affordable budget.

We understand that each home is designed to reflect the needs and echo the lifestyle of your clients therefore we pride ourselves in offering a comprehensive range of products that will help style any project, whether a traditional five bedroom home, an apartment in the city or even a bespoke modular build.

We will work with your design and specification requirements to ensure your project creates a real wow factor.

NYTROOF RAPID FIT SYSTEM

A fully designed and engineered panelised roof system offering an innovative and unique 'room in the roof' warm roof solution

- 4 roofs can be installed in 1 day due to the innovative design of the RAPID FIT SYSTEM
- Capacity to design, fabricate and deliver thousands of roofs per year
- Designed to be fitted by local tradespeople or specialist fitting teams
- Off site fabrication improves dimensional accuracy and reduces construction time and labour costs on site
- High insulation values
- Meets the requirements of NHBC when built in accordance with NYTROOF installation instructions and housebuilder's specification
- Robust Detail approved, which can eliminate the need for on-site sound testing
- Eliminates many Health and Safety risks and avoids high level steels
- Reduced time working at height and no risk of falling blocks

DOORS & JOINERY

We offer an extensive range of door and joinery solutions, for use in house build and modular build projects, suitable for commercial and domestic applications

Our range includes;

- Door kits - pre-machined with cut outs, complete with door frame, door leaf, ironmongery
- Door Sets - pre-hung with architraves, hinges, latch or lock, door linings and door stops. Fire door sets available in standard FD30 and FD60 to order
- Roof Lights - in natural Pine, acrylic coated Pine, PU-coated Pine or PVC
- Flooring - Engineered, Solid Wood, Vinyl and Composite
- Stair Parts - a choice of contemporary metal or glass, prestige Oak or Redwood or traditional primed Softwood, Hemlock and Redwood finishes.

TIMBER & MDF MOULDINGS

We manufacture a broad range of Softwood and Hardwood mouldings, available from stock.
